Creative brain behind JEE-O, concept and product designer Lammert Moerman, only has one wish. To enable the world to feel the JEE-O DNA. Introduce bon vivants worldwide to the ultimate JEE-O feeling and let them discover the experience of showering and bathing in endless atmospheres.

JEE-O creates products with tranquillity, peace and space for body and mind, always in an ambiance of functional luxury.

JEE-O unique bathrooms

Together with the well-known Dutch interior designer Edward van Vliet, JEE-O has designed a stylish bathroom collection: the bloom series. Like all designs of the top designer, the refined collection was inspired by nature and geometry.

Van Vliet’s love of nature and geometrical shapes is reflected in the smooth transition from facet to round shapes in the design of the baths and basins, and in the hexagonal-shaped faucet heads and handles. A sunflower served as inspiration for the shower head.

The timeless bloom collection includes all the elements for optimum bathroom enjoyment: a bath, top mounted and freestanding basins, a ceiling shower and wall shower, and accessories. Designed with care and vision, they are all eye-catchers with international allure to suit any bathroom.

“I think it is important to have a bathroom where everything is coordinated”, says Edward Van Vliet “The bath and the shower must be generous. It’s all about creating worlds. Apart from the fact that everything has to function properly, my aim is to enable people to fully embrace the world of water.”

Water takes on the shape of the object that contains it. That concept has been the starting point for Italian designer Brian Sironi in designing the JEE-O flow series. Up until the moment water flows from the faucet and is free to take on any shape, it has the shape of the pipes through which it flows.

Brian Sironi: “We rarely see the pipes; they are hidden away behind walls and under floors. These taps and mixers from the flow series reveal the piping, extending it into the bathroom.”

In this series you will find a freestanding and wall mounted shower mixer, a freestanding bath mixer and wall and top mounted faucets. The in multiple colour available bath and basins in this series complements it fully.

SoHo is a vibrant neighborhood in cosmopolitan New York. A dynamic melting pot of cultures and styles, and home to countless industrial loft apartments, SoHo is austere and stark. This freestanding productline is characterized by the same simplicity. Less is more. Thanks to the one-move cartridge in the faucet mechanism, the cleverly designed handle with a tactile rubber coating can be operated in the same way as a joystick. All JEE-O soho products are made from stainless steel and finished with a dark, all-weather hammer coating for the right industrial look.

The JEE-O soho series is the first productline to result from the alliance between JEE-O and the Amsterdam-based design studio Grand & Johnson: creative cosmopolitans working together to shape maximal minimalism.

This robust JEE-O soho series designed by Grand & Johnson consists of freestanding shower mixers, a freestanding bath mixer, top and wall mounted faucets, mixers, spouts and a hand shower, wall and ceiling mounted shower, a bath, basins and accessories to complete your unique bathroom.

“With our freestanding icons we wish to give people freedom to design the bathroom they desire for an energizing experience.”

Lammert Moerman

The pure series is the embodiment of the natural energizing experience of flowing water. As the water cascades down from the spout, light is reflected in the water flow. Radiating the purest feeling that water can give. The pure series has a clean design with an O-ring to regulate both the water flow and the temperature.

This beautiful JEE-O pure series is designed by Lammert Moerman and consists of a freestanding shower, wall and top mounted faucets and a freestanding and wall mounted bath mixer.

JEE-O baths and basins stand out in minimalistic design and organic shapes. The models are cast in their specific shape by using a combination of quartz rock and resin named DADOquartz material. Characterized as modern, scratch resistant and lasts a lifetime. All baths are equipped with an integrated overflow-system. The JEE-O baths and basins are made in white and are colourfast.

JEE-O baths and basins are made from DADOquartz and manufactured with a 25 year warranty. More information about this material can be found on the DADOquartz warranty page on our website.

JEE-O toilets are unique. With their organic shape they are dedicated to the daily rituals. The toilets have a minimalistic design and give you comfort with the soft close and quick release seat.

JEE-O toilets are made from ceramic and available in a white and black matt finish. They match perfectly with the JEE-O baths and basins made from DADOquartz as well with the JEE-O series in black.
