SOLUCIONES INTEGRALES EN CERÁMICA

TAU presenta este catálogo con la voluntad de ofrecer a sus Clientes **SOLUCIONES INTEGRALES EN CERÁMICA**, capaces de vestir la Arquitectura con una piel bella y funcional, que emocione y eleve la calidad de vida de las personas.

Para ello, TAU acompaña a los profesionales de la Arquitectura, el Interiorismo y la Construcción, desde el proceso creativo hasta la materialización de las ideas, ofreciendo soluciones versátiles y atemporales, técnicas y estéticas, siempre con la impronta de la elegancia y la calidad de nuestro producto.

Porque nuestra Cerámica es eterna, **TAU** ha diseñado una **COLECCIÓN ATEMPORAL**, que aúna tradición y tendencia, para crear espacios elegantes, sofisticados y actuales, con vocación de **LEGADO DE ESTILO**.

Nos inspiramos en la Naturaleza, en su belleza serena y equilibrada, y transformamos maderas, mármoles, piedras, metales... en Cerámica de elevadas prestaciones técnicas y estéticas. De la transformación de la Naturaleza nace esta colección, en la que a la variedad de formatos y al diseño exclusivo de texturas y relieves, se suma una cuidada elección de gamas cromáticas neutras y armoniosas.

Materiales, formatos, texturas y colores son los instrumentos de diseño que TAU pone a disposición de sus Clientes para que, en sus múltiples combinaciones, diseñen su propio estilo de vida y, en definitiva, **HAGAN DE LA CERÁMICA UNA FORMA DE VIVIR**.

INTEGRAL CERAMIC SOLUTIONS

TAU presents this catalogue conceived to offer its clients **INTEGRAL CERAMIC SOLUTIONS**, capable of covering architectural structures with a beautiful and functional skin to thrill us and enhance our quality of life.

In its quest, TAU accompanies professionals from the world of architecture and construction right through their creative process until their ideas take shape, offering solutions that are versatile and timeless, technical and aesthetic, all with the stamp of elegance and quality that comes with our products.

Because our ceramics are eternal, TAU has designed a **TIMELESS COLLECTION**, a fusion of tradition and vogue, to create elegant, sophisticated and contemporary spaces designed to be a **LEGACY OF STYLE**.

We take our inspiration from the serene, balanced beauty of nature, transforming woods, marbles, stones and metals into ceramic products with superior technical and aesthetic features. Our collection evolve from this transformation of nature into ceramics, offering a variety of formats and the exclusive design of textures and reliefs, together with a carefully selected range of neutral and harmonious colours and tones.

Materials, formats, textures and colours are the design tools TAU provides so its clients, by using its multiple combinations, can design their own lifestyle and, in sum, **TURN CERAMICS INTO A WAY OF LIFE**.

BIG SIZES

GRES PORCELÁNICO / PORCELAIN STONEWARE

Polivalente y grande, TAU BIG SIZES aúna la seducción estética de los grandes formatos, con las características técnicas del gres porcelánico de alta gama en 3 y 6 mm de espesor, que permite multitud de posibilidades de aplicación: fachadas, revestimiento, mobiliario, superficies de trabajo, techos...

TAU BIG SIZES engloba los grandes formatos porcelánicos de TAU, entre los que destaca, por su versatilidad y manejabilidad el 240x120, idóneo para cualquier tipo de reforma interior, sea de ámbito público o doméstico.

Polyvalent and large, TAU BIG SIZES combine the aesthetic seduction of large formats, with the technical characteristics of high-end porcelain stoneware in 3 and 6 mm thickness, which allows a multitude of application possibilities: facades, cladding, furniture, surfaces work, ceilings ...

TAU BIG SIZES encompass TAU's large porcelain tile formats, where we can distinguish the 240x120, which is ideal for any type of internal reform, whether public or domestic.

TAU ceramica

Estimado cliente: le recomendamos que entregue una copia de esta información a los particulares a los que suministre material de la marca TAU Cerámica. Este pequeño esfuerzo se verá recompensado al evitarse posibles reclamaciones de sus clientes. Muchas gracias por su colaboración.

Dear customer, we recommend you give a copy of this information to the people you supply with tau cerámica materials. This will help avoid complaints from your customers. Many thanks for your cooperation.

RECOMMENDATIONS

RECOMENDACIONES

www.tauceramica.com

ALMACENAMIENTO

1 Para garantizar las características de su acabado, el producto suministrado debe mantenerse en su embalaje original hasta el momento de la colocación.

2 Es conveniente evitar el contacto directo con sol y lluvia. Un embalaje deteriorado puede ocasionar algunos desperfectos en las piezas, como roturas, despuntados o manchas difíciles de eliminar.

3 Si el producto va a permanecer almacenado durante un largo período es conveniente hacerlo bajo cubierta.

WAREHOUSING

1 In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing.

2 Deterioration in packaging may result in imperfections in the product such as cracking, pitting and staining.

3 If the product is likely to be stored for a long period of time it should be suitably covered.

RECOMENDACIONES DE COLOCACIÓN

1. Aconsejamos la colocación de nuestro material cerámico por parte de personal cualificado, con experiencia demostrada y con posesión de las herramientas y útiles necesarios y adecuados para la colocación.

2. El soporte a revestir debe reunir condiciones adecuadas de rigidez, planeidad, limpieza e impermeabilidad y ser compatible químicamente con el material de agarre a utilizar.

3. En caso de reposición sobre material cerámico preexistente, es conveniente prever elementos que garanticen la adherencia del nuevo recubrimiento.

4. Deberán respetarse en todo caso las juntas estructurales previstas y plantear cuantas juntas de dilatación y perimetrales resulten necesarias y, en cualquier caso, las que resulten exigibles desde el punto de vista normativo.

5. Deberá utilizarse un material de agarre adecuado al tipo de cerámica a colocar. En el caso de Porcelánico, deberá emplearse un material de agarre adecuado a la baja porosidad de este producto. En cualquier caso, se utilizarán materiales de agarre y rejuntado con adecuada elasticidad y altas prestaciones técnicas, mecánicas y químicas.

RECOMMENDATIONS FOR LAYING

1. We recommend that our ceramic tiles should only be laid by qualified professionals with proven experience and in possession of the appropriate tools and equipment for the task.

2 . The surface to be tiled must be rigid, flat, clean and impermeable; it should also be chemically compatible with the adhesive material, mortar etc., to be used to lay the tiles.

3. If the new tiles are going to be laid on existing ceramic tiles, elements should be incorporated to ensure that the new covering bonds properly.

4. In every case, all planned structural joints must be taken into account. Include as many expansion and perimeter joints as necessary; in any event, such joints required by current norms and standards must be incorporated.

5. The type of adhesive used must be suitable for the type of ceramic tile to be laid. The low porosity of porcelain tile requires that the adhesive used must be suitable for this type of material. In all cases the adhesives and grouts used must be sufficiently elastic, and have high quality technical, mechanical and chemical specifications.

RECOMENDACIONES DE TRABADO

1. TAU recomienda no trabar a mitad de pieza los siguientes formatos: 30x60, 37,5x75, 30x120, 60x120 y 20x120.

2. En general, desaconsejamos la colocación trabada con un desplazamiento superior a 15 cm. En cualquier caso, el desplazamiento no debe ser superior al 25% de la longitud de la pieza.

RECOMMENDATIONS FOR LAYING PATTERNS

1. TAU recommends not laying half-piece brick bond patterns with the following formats: 30x60, 37,5x75, 30x120, 60x120 y 20x120.

2. In general, we do not recommend brick bond patterns with overlaps of more than 15 cm. In all cases, the overlap should be no more than 25% of the length of the piece.

RECOMENDACIONES DE LIMPIEZA.

1. Una vez concluida la tarea de rejuntado y tras la limpieza de éste, es importante respetar el tiempo de puesta en servicio del recubrimiento, es decir, no limpiar inmediatamente sino dejar secar la obra. Para la limpieza de puesta a punto del suelo cerámico aconsejamos esperar unos 5 días.

2. Se debe proteger el recubrimiento frente al agua y humedad en las primeras fases de maduración y endurecimiento de los materiales de agarre y rejuntado. Especialmente en exteriores y con riesgo de helada.

3. También es conveniente tomar medidas para evitar posibles agresiones mecánicas o químicas producidas por los trabajos posteriores de otros oficios o instalaciones con el fin de proteger la superficie de daños puntuales; por ello se recomienda cubrir el pavimento con cartón grueso o similar.

4. Para la limpieza final del recubrimiento se aconseja utilizar productos compatibles con la resistencia química de las piezas, así como evitar el uso de detergentes sólidos con partículas abrasivas o soluciones que contengan ácido fluorhídrio, pues este ácido ataca el esmalte y produce daños irreparables en la cerámica.

5. La cerámica proporciona un recubrimiento completamente funcional una vez superado el tiempo de maduración de los materiales y requiere muy poco mantenimiento, tan sólo la limpieza cotidiana con agua limpia a la que puede añadirse un detergente de base alcalina. No utilizar ni espátulas metálicas ni estropajos abrasivos para la limpieza del recubrimiento.

6. En caso de producirse manchas que no puedan ser totalmente eliminadas con un detergente convencional y que requieran la utilización de disolventes o limpiadores específicos, se recomienda consultar previamente la clase de resistencia química de la pieza.

7. Se aconseja no utilizar ceras, aceites o productos similares.

RECOMMENDATIONS FOR CLEANING

1. Once the tiles have been grouted and any excess grout cleaned off, it is important to wait the stipulated time before using the tiled surface; in other words, any cleaning should wait until the tiled surface is completely dry. We recommend waiting 5 days before cleaning in readiness for full use.

2. The newly tiled surface must be protected from water and damp while the adhesive and grouting materials are maturing and hardening. This is particularly important in outside spaces and areas where there is a risk of freezing.

3. Measures should also be taken to protect the newly tiled surface against mechanical or chemical damage resulting from subsequent work by other professionals or later installations. Damage can be prevented by covering the floor tiles with thick cardboard or similar material.

4. For the final cleaning of the tiled surface, the products used should be compatible with the chemical resistance of the tiles. Avoid solid detergents with abrasive particles and solutions containing hydrofluoric acid, which attacks the glaze and causes irreversible damage to the ceramic tile.

5. Ceramic products provide a completely functional, low-maintenance surface once the period has passed during which the adhesives used to lay the tiles have matured or hardened. Daily wiping over with clean water and a little alkaline-based detergent is sufficient. Do not use metal scrapers or abrasive scrubbers to clean the tiles.

6. In the case of stains that cannot be removed completely with regular detergents and that require specific solvents or cleaning products, the tile's chemical resistance properties should be consulted beforehand.

7. The use of waxes, oils or similar products is not recommended.

RECOMENDACIONES PARA LA LIMPIEZA DE DECORADOS Y PIEZAS ESPECIALES.

1. Debido a las características de los metales utilizados en la confección de estos productos, es suficiente utilizar una bayeta húmeda y jabón líquido neutro. Si la pieza llevara protección, no quitarla hasta que el producto esté colocado y limpio.

1. Due to the characteristics of the metals used in the production of these pieces, only a damp cloth and neutral liquid soap are required to clean them. Any protective material should be left on the piece until it is fitted and clean.
